

The Solution to the Problem of Dangerous, Slippery When Wet Hard Floor Tile

Clear chemical treatment that increases the slip-resistance and the safety of the surface when wet.

Helps reduce slip injury on ceramic, porcelain and similar hard floor surfaces.

Low odor and zero VOC's

Does not noticeably alter the appearance of the surface.

One application can last for years.

Certified High Traction by the NFSI.

No Skidding® Anti-Slip Floor Treatments

No Skidding® treatments are suitable for slippery-when-wet ceramic, porcelain tile, mosaic, granite, saltillo, terrazzo, quarry tile, slate, glazed brick, unsealed concrete, porcelain/enamel tubs, tile shower stalls & other stone or mineral surfaces.

Our anti-slip treatments have a proven track record in over fifty countries around the world since 1993.

No Skidding® - First in Anti-Slip Products Since 1993

No Skidding® Industrial Anti-Slip Treatment, product no. 90378:

Easy-to-use, economical and proven anti-slip treatment that addresses the problem caused by slippery-when-wet tile floors and enamel or porcelain bathtubs.

It creates an “Invisible Tread” on tile floors and enamel or porcelain bathtubs that significantly increases the co-efficient of friction and reduces the problem created by slippery-when-wet surfaces.

The Treatment works on natural unsealed mineral floors, such as ceramic, saltillo tile, quarry tile, granite, mosaic tile, slate, terrazzo, etc.

Our Treatment typically lasts for years with one application.

It may be used indoors and outdoors.

The wetter the floor the more effective the slip-resistance.

No Skidding® Anti-Slip Treatment is typically undetectable to the naked eye yet significantly increases the slip-resistance of the floor creating a safer floor surface for pedestrians when wet. Our treatment is not a coating. Good housekeeping is required to prevent soil from accumulating over the slip-resistant surface that our product creates.

Ready to use. Quick and easy to apply.

Supplied with detailed instructions for use. One gallon will treat approximately 400 sq. ft. (40 square meters).

When ordering this product please order one unit of 00501 Treatment Rinse for each gallon of this product ordered.

One gallon will also treat 32 enamel or porcelain bathtubs.

Very cost effective.

Exceeds co-efficient of friction requirements for ASTM, OSHA, ADA, Canadian and U.S. Government industrial safety standards.

Effective cleaning and maintenance is essential to prolong the effectiveness of our treatment.

Approved for use in registered food establishments by the Canadian Food Inspection Agency (CFIA).

No Skidding® Anti-Slip Treatment, product no. 90378 has been wet pendulum tested, approved and classified as slip resistant by CSIRO in Australia in accordance with AS/NZS 4586:2004.

No Skidding® Anti-Slip Treatment has been tested and approved under the ANSI/NFSI B101.1-2009 Test Method for Measuring Wet SCOF of Common Hard-Surface Floor Materials on site by the NSFI and has passed certification. Product no. 90378 is certified as “High Traction” by the NSFI.

No Skidding® treatment can be applied with minimal disruption and the floor surface is safe to walk on immediately after treatment is applied and completely removed.

No Skidding® Industrial Anti-Slip Treatment is recommended for use in hotels, hospitals, restaurants, fast food chains, food processing and industrial plants, swimming pool decks, shopping malls, department stores, food markets, senior care, schools, health clubs, nursing homes, rail & subway stations, airport terminals, residences, and on any hard tile surface where slip accidents may occur due to slippery-when-wet conditions on the above mentioned unsealed surfaces. Supplied in 1 gallon (3.78 L), 5 gallon (18.9 L) or 55 gallon (207.9 L) containers.

No Skidding® Porcelain Anti-Slip Treatment, product no. 80378:

An easy-to-use, economical and proven anti-slip treatment that was formulated specifically to address the problem caused by slippery-when-wet porcelain floor tiles.

It creates an “Invisible Tread” on porcelain tile floors that significantly increases the co-efficient of friction and helps reduce the problem of dangerous when wet surfaces.

Typically lasts for years with one application.

It may be used indoors and outdoors.

Typically the wetter the floor the more effective the slip-resistance.

Porcelain tile treats more rapidly than many other hard tile. We have added an ‘inhibitor’ to our porcelain tile treatment to slow down the process to help ensure an even application that strikes a balance between maintaining the aesthetics of the floor and helping to create a safer, slip-resistant surface when the porcelain is wet.

Ready to use. Quick and easy to apply.

Supplied with detailed instructions for use. One gallon will treat approximately 400 sq. ft. (40 square meters).

When ordering this product please order one unit of 00501 Treatment Rinse for each gallon of this product ordered.

Very cost effective.

Exceeds co-efficient of friction requirements for ASTM, OSHA, ADA, Canadian and U.S. Government industrial safety standards.

No Skidding® Anti-Slip Treatment has been tested and approved under the ANSI/NFSI B101.1-2009 Test Method for Measuring Wet SCOF of Common Hard-Surface Floor Materials on site by the NSFI and has passed certification. Product no. 80378 is certified as “High Traction” by the NSFI.

No Skidding® Porcelain Anti-Slip Treatment is recommended for use on porcelain tiles in hotels, hospitals, restaurants, fast food chains, food processing and industrial plants, swimming pool decks, shopping malls, department stores, food markets, senior care, schools, health clubs, nursing homes, rail & subway stations, airport terminals, and any hard tile surface where slip accidents may occur due to slippery-when-wet conditions on unsealed porcelain tile. Supplied in 1 gallon (3.78 L), 5 gallon (18.9 L) or 55 gallon (207.9 L) containers

Product no. 90378 - for ceramic tile

No Skidding® D.I.Y. Anti-Slip Bathtub and Shower Treatment, products no. 10932, 10908, 10904:

Product no. 10908 and 10904 are an easy-to-use, economical and proven anti-slip treatment that addresses the problem caused by slippery-when-wet tile shower floors and enamel or porcelain bathtubs.

One 4 oz. bottle slip treats one tub or one shower. One 8 oz. bottle slip treats two tubs or one tub and one shower. It creates an "Invisible Tread" on shower tile floors or enamel / porcelain bathtubs that significantly increases the co-efficient of friction and reduces the problem of slippery-when-wet surfaces.

Our Treatment typically lasts for years with one application and good housekeeping. Typically the wetter the surface the more effective the slip-resistance.

Ready to use. Quick and easy to apply.

Supplied with detailed instructions for use. Simply use 4 oz. per tub or shower. The process takes less than five minutes from start to finish and is very cost effective.

Certified High Traction by NFSI.

If you require sufficient anti-slip treatment to address a large number of tubs in a hotel, motel, hospital or seniors care facility, please order product no. 90378. Each gallon of 90378 typically slip treats 32 tubs.

#10904 4 oz. (118 ml) treats 1 tub, 24/carton

#10908 8 oz. (237 ml) treats 2 tubs, 12/carton

#10932 32 oz. (946 ml) treats 8 tubs or 100 ft.² of tile, 12/carton

Product 10932, 10908 or 10904 - for tile showers

No Skidding® Heavy Duty Concrete Anti-Slip Treatment, product no. 50378:

An easy-to-use, economical and proven anti-slip treatment that was formulated specifically to address the problem caused by slippery-when-wet unsealed concrete and cementitious floor surfaces. Not to be used on other types of floors.

It creates an "Invisible Tread" on unsealed concrete floors that significantly increases the co-efficient of friction and reduces the problem of dangerous when wet smooth concrete surfaces.

Typically lasts for years with one application.

It may be used indoors and outdoors.

Typically the wetter the floor the more effective the slip-resistance.

Ready to use. Quick and easy to apply.

Supplied with detailed instructions for use. One gallon will treat approximately 400 sq. ft. (40 square meters).

When ordering this product please order one unit of 00501 Treatment Rinse for each gallon of this product ordered.

Very cost effective.

Exceeds co-efficient of friction requirements for ASTM, OSHA, ADA, Canadian and U.S. Government industrial safety standards.

No Skidding® Anti-Slip Treatment has been tested and approved under the ANSI/NFSI B101.1-2009 Test Method for Measuring Wet SCOF of Common Hard-Surface Floor Materials on site by the NFSI and has passed certification. Product no. 50378 is certified as "High Traction" by the NFSI.

Supplied in 1 gallon (3.78 L), 5 gallon (18.9 L) or 55 gallon (207.9 L) containers.

Effective cleaning and maintenance is essential to prolong the effectiveness of our treatments.

Product 80378 - for porcelain and delicate tile surfaces.

No Skidding® Flexclean, product no. 8301 and No Skidding® On Guard, product no. 8501 are recommended to preclean any surfaces to be treated and for on-going maintenance.

The only treatment system in the world available in three specific formulations:

No Skidding® Industrial: Ceramic, granite, mosaic, terrazzo, quarry tile, slate, glazed brick, saltillo tile, and most natural unsealed stone surfaces. Also enamel or porcelain bathtubs and tile showers. (Product 90378).

No Skidding® Porcelain: Porcelain Tile and other delicate mineral based surfaces (Product 80378).

No Skidding® Concrete: For unsealed concrete floors and other cementitious floor surfaces (Product 50378).

No Skidding® DIY, 10932, 10908, 10904: Small areas of tile and enamel / porcelain bathtubs.

Product no. 90378 - ceramic pool deck

Product no. 80378 - porcelain tile

The Problem

Slips and falls are the second leading cause of accidental death and third leading cause of disability - CDC

Slips and falls are the leading cause of workers' compensation claims - NFSI

Slips and falls are the greatest source of general liability claims within the restaurant industry in the USA - National Restaurant Association

Slips and falls are the most common of workplace hazards and make up over a third of all major injuries - HSE, UK

Typical Applications

Hotels, resorts, restaurants, condominiums, supermarkets, hospitals, nursing homes, light industrial manufacturing, food processing plants, health clubs, shopping malls, office buildings, schools, swimming pool decks, bathroom floors, bathtubs, showers and tile staircases.

No Skidding® Anti-Slip Treatments are designed to increase the slip-resistance on wet hard floor surfaces. Can be used on ceramic tiles, porcelain, unsealed granite, terrazzo and concrete floors. No Skidding® Anti-Slip Treatments can be used indoors and outdoors.
